TORIOS PRE-ALPHA IS COMING VERY SOON

JUNE 8, 2014 | ALI LINX

Hi,

The title of this post says it all 😃
YES! finally, ToriOS will have an ISO to play with and test – YAY 😃

While from the outside, ToriOS seems very inactive project, from the inside, it is quite the opposite and you do have the right to think so because we haven't been active enough on the Marketing and Communications part of the project. Please accept our apology.

Due to the fact that most of the members of ToriOS are busy whether in real life or other projects, lack of communications between the community of ToriOS and the world was noticeable and this explain why there were no posts on our news section for over a month now.

We'd like to apologize again and the good news is, very soon, two members of ToriOS community will be in charge of the news section so hopefully more posts are coming on the way 😃

As for ToriOS pre-alpha ISO, we shall communicate to you very soon (hopefully) all the needed details. So, get ready and prepare your virtual machines or your spare test machines if you have one 🙂
Thank you!

QA LEAD/DRIVER

JUNE 8, 2014 | ALI LINX

Hi,

Sadly, ToriOS QA Lead (f-jack) has resigned from his role because he has no time any more to spare for ToriOS project.

We wish him all the best and thank him for his help and support. ToriOS's door will always be wide opened for him in case he wishes to return.

Meanwhile, ToriOS Team needs a new QA Lead/Driver to fill the current vacant role. Unquestionably, this is a very important role and very much needed.

If you are able to handle the QA Tasks for ToriOS Project, you're more than welcome to step in 😃

Please see **Join ToriOS Page** for more details.

We're looking forward for your help and support …

Thank you!

Ali/amjjawad
